

ISSI International Team

Studies of the Deep Solar Meridional Flow

2nd Team Meeting

July 3 – 7, 2017, Berne, Switzerland

Motivation for the Meeting

After 8 months of working

- Reconvene and discuss progress and new ideas
- Concerted approach of comparing helioseismic techniques
- Continuing elucidating the strengths and weaknesses of helioseismic methods

Thinking about a joint publication on

Our joint best estimate of the Sun's meridional flow

Methods used so far

- Time-Distance Helioseismology
- Eigenfunction-Perturbation Analysis
- Fourier-Legendre Analysis

Agenda of the Meeting

- Presentation of updates and progress
- Discussions
- Starting joint work

Agenda of the meeting

- Meet here from 9:00-17:00
- Breaks:
 - 10:30-11:00
 - 12:30-14:00
 - 15:30
- Wednesday and Friday afternoon off

Being at ISSI

Travel costs and per diem:

At ISSI members will fill in forms for the purpose of per diem reimbursement.

- During the stay in Bern each member will get a per diem for meals of
 - CHF 35.- for lunch and
 - CHF 35.- for dinner.
 - Breakfast is included in the hotel fees.
- The hotel is paid directly by ISSI.
- NASA scientists having specific administrative rules should contact Alexandra Lehmann.
- Participants will get the per diem by bank transfer, so would each participant please provide the IBAN code together with the exact address of one's own bank.

Publications

- The number and format of publications, the choice of the publisher and eventual costs are as a rule the responsibility of the Team.
- *ISSI requests an acknowledgement of its support in all publications resulting from the team activities.*

We need to make a group photo!
